Description

The GG800NX takes the proven GG800N platform and adds a movable arm and expandable tracks for greater versatility and stability. At 850 kg with a Koop 192F engine (7.2 kW), it offers enhanced reach and a wider stance when needed, then narrows down to pass through tight gaps. Ideal for landscapers, utility crews, and small contractors who need extra flexibility on varied terrain without stepping up to a heavier machine.
