### Description

The GG013 steps up to 1300 kg capacity with a powerful Yunnei 50 HP 4-cylinder diesel engine. At 3400 kg with 0.4 m³ bucket, 3000 mm lifting height, and 4x4 drive, it handles heavier materials and tougher conditions than lighter models. The enclosed cabin ensures operator comfort during demanding shifts. Designed for mid-size construction firms, busy farms, and material yards where daily workloads require more power and higher lifting capacity.
