Distance entre les lignes	800 mm
HP minimum	85 hp
Poids	2200 kg
Largeur de transport	300 cm

Description

TERRA is a successfully tried and tested machine that has been in use in European agriculture for many years. Its sophisticated and stable mechanics have proven their resilience on all soil types. The threefold working frame with roller-tine-roller combination turns even hard, ploughed soils into a finely crumbed seed bed in just one traverse. The TERRA's spring tines can be substituted for rigid tines or goosefoot shares, meaning the machine can be used over a very broad range.
