Nombre d ' unités	6 pcs
Nombre de dents de printemps	114 pcs
Distance entre les lignes	800 mm
HP minimum	285 hp
Poids	8500 kg

Description

TERRA is a successfully tried and tested machine that has been in use in European agriculture for many years. Its sophisticated and stable mechanics have proven their resilience on all soil types. The threefold working frame with roller-tine-roller combination turns even hard, ploughed soils into a finely crumbed seed bed in just one traverse. The TERRA's spring tines can be substituted for rigid tines or goosefoot shares, meaning the machine can be used over a very broad range.
